

# WEST LICKING COUNTY AREA IMPROVEMENTS

AEP Ohio officials plan to conduct studies to assess the feasibility of upgrades to the electric transmission network serving customers in Jersey Township in Licking County. The area's power grid must be upgraded to support economic development and maintain electric service reliability.

## WHAT

- Preliminary solutions could include:
- Building new power lines
  - Adding a substation
  - Upgrading other substations in the area

## WHY

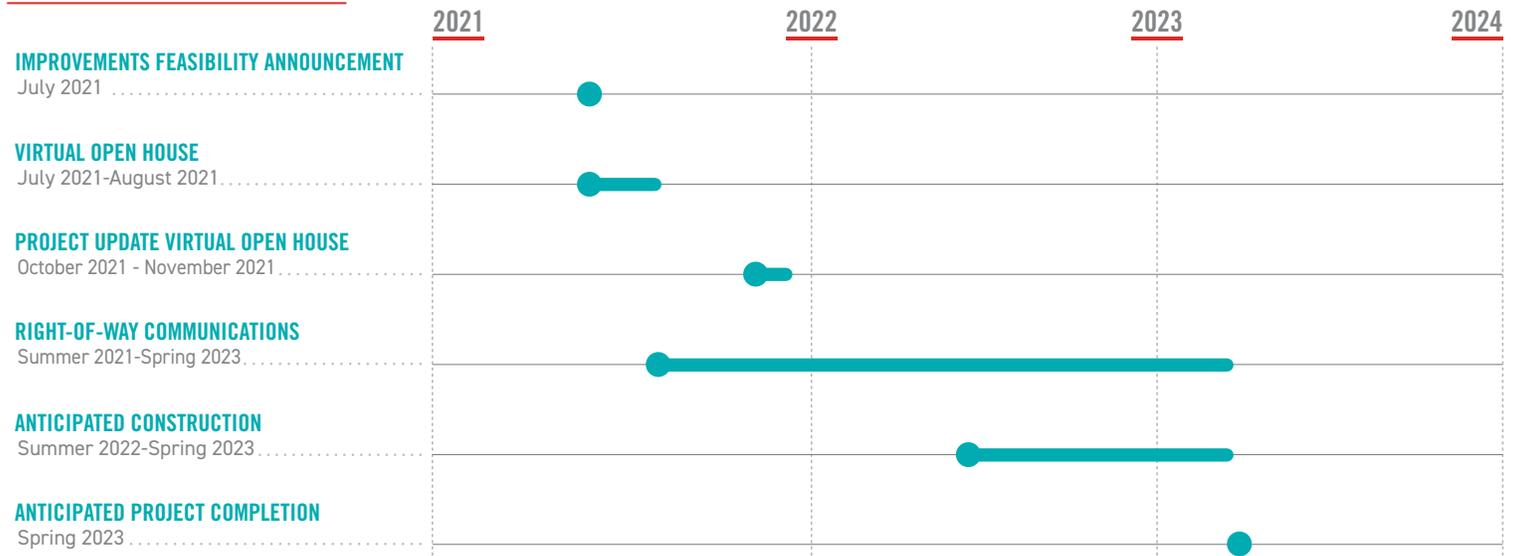

- The improvements under consideration would:
- Support economic development
  - Maintain electric service reliability

## WHERE

- The study area includes:
- Jersey Township, Licking County
  - City of New Albany

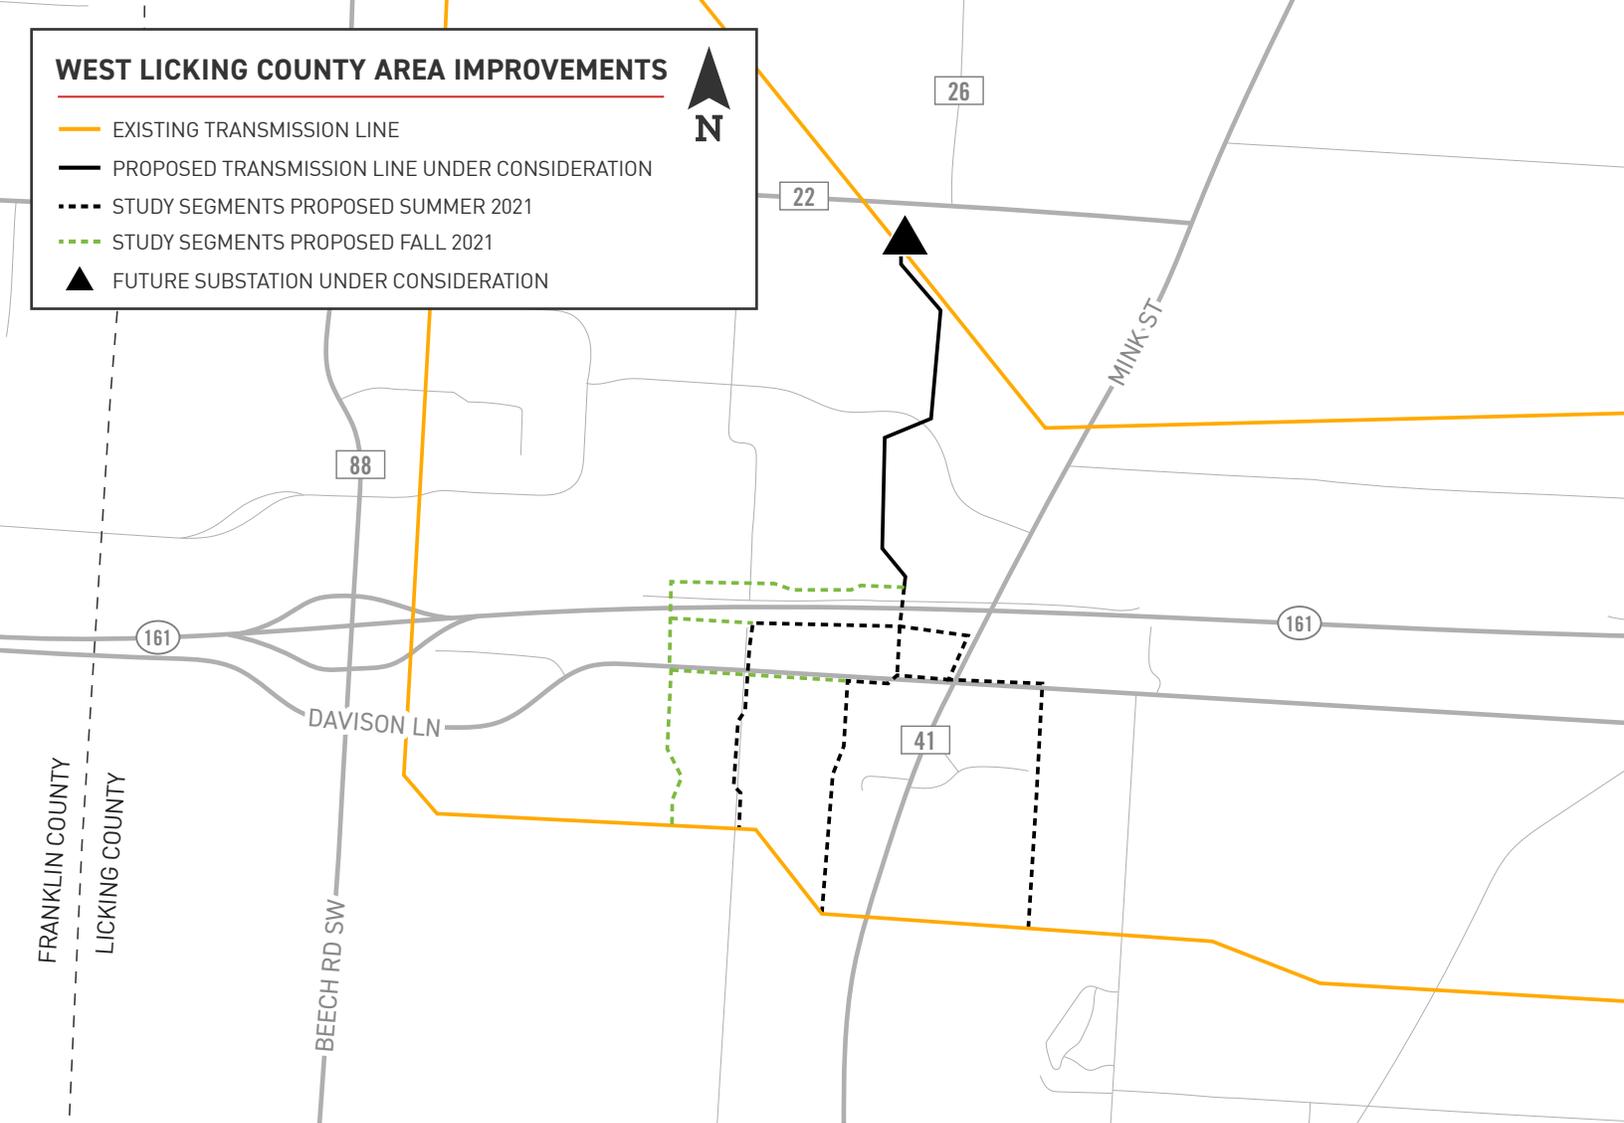

## PROJECT SCHEDULE

\*Timeline subject to change.

## WEST LICKING COUNTY AREA IMPROVEMENTS

-  EXISTING TRANSMISSION LINE
-  PROPOSED TRANSMISSION LINE UNDER CONSIDERATION
-  STUDY SEGMENTS PROPOSED SUMMER 2021
-  STUDY SEGMENTS PROPOSED FALL 2021
-  FUTURE SUBSTATION UNDER CONSIDERATION

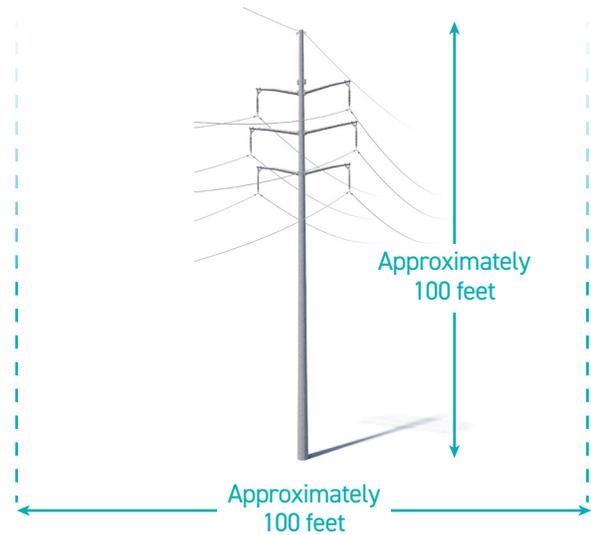

## TYPICAL STRUCTURES

A future project would involve the use of single steel poles.

Structure Height: **Approximately 100 feet\***

Right-of-Way Width: **Approximately 100 feet\***

\*Exact structure, height and right-of-way requirements may vary
