

# OHIO CENTRAL-MILLWOOD TRANSMISSION LINE REBUILD PROJECT

AEP Ohio representatives plan power grid upgrades to improve electric reliability for customers in Knox, Coshocton and Muskingum counties. The Ohio Central - Millwood Transmission Line Rebuild Project involves updating about 28 miles of power line.

## WHAT

The project involves rebuilding about 28 miles of 138-kilovolt power line between Ohio Central and Millwood substations.

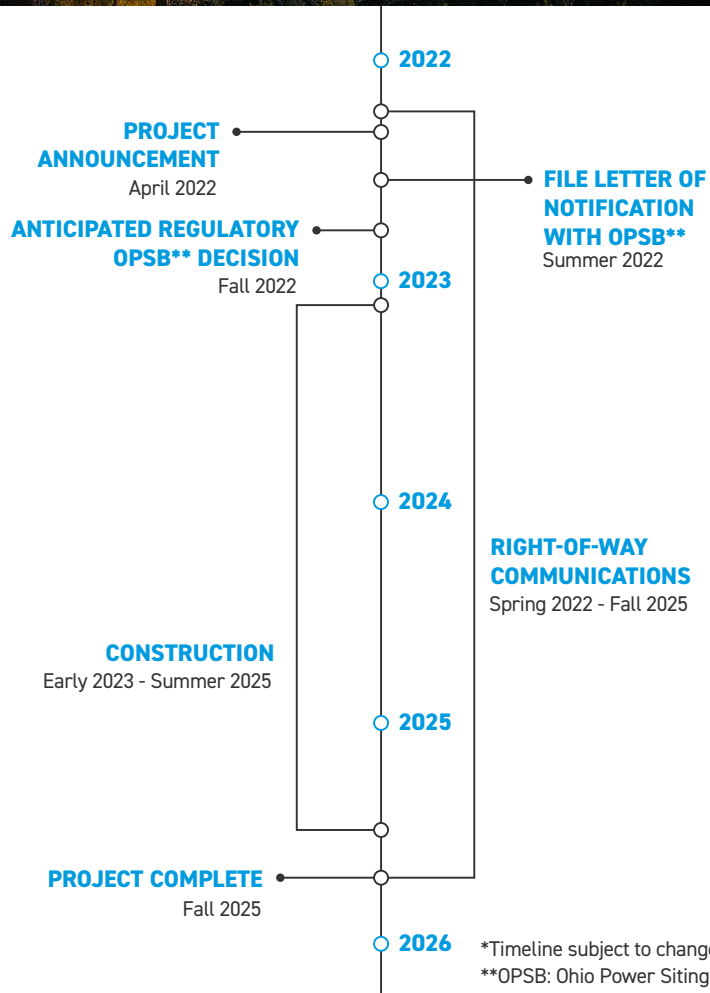

\*This project requires regulatory filings with the Ohio Power Siting Board (OPSB)

## WHY

- The improvements:
- Upgrade aging towers from the 1920s with modern steel poles
  - Strengthen the local electric transmission system
  - Reduce the likelihood of power outages
  - Speed recovery of service when outages occur

## WHERE

- The project area includes:
- Howard, Union, Butler and Jackson townships in Knox County
  - Perry, Pike and Washington townships in Coshocton County
  - Cass and Jefferson townships in Muskingum County

\*Timeline subject to change  
 \*\*OPSB: Ohio Power Siting Board

## TYPICAL STRUCTURES

The project involves the use of steel single-pole structures.

Structure Height: Approximately 100 feet\*

Right-of-Way Width: 100 feet\*

\*Exact structure, height, and right-of-way requirements may vary.
