

STUART - SEAMAN

TRANSMISSION LINE REBUILD PROJECT

An AEP Company

BOUNDLESS ENERGY™

AEP Ohio representatives plan power grid upgrades to improve electric reliability for customers in Adams County. The Stuart-Seaman Transmission Line Rebuild Project involves updating about 29 miles of power line.

WHAT

The project involves rebuilding about 29 miles of power line.

WHY

The improvements:

- Strengthen the local electric transmission system
- Reduce the likelihood of power outages
- Speed recovery of service when outages occur

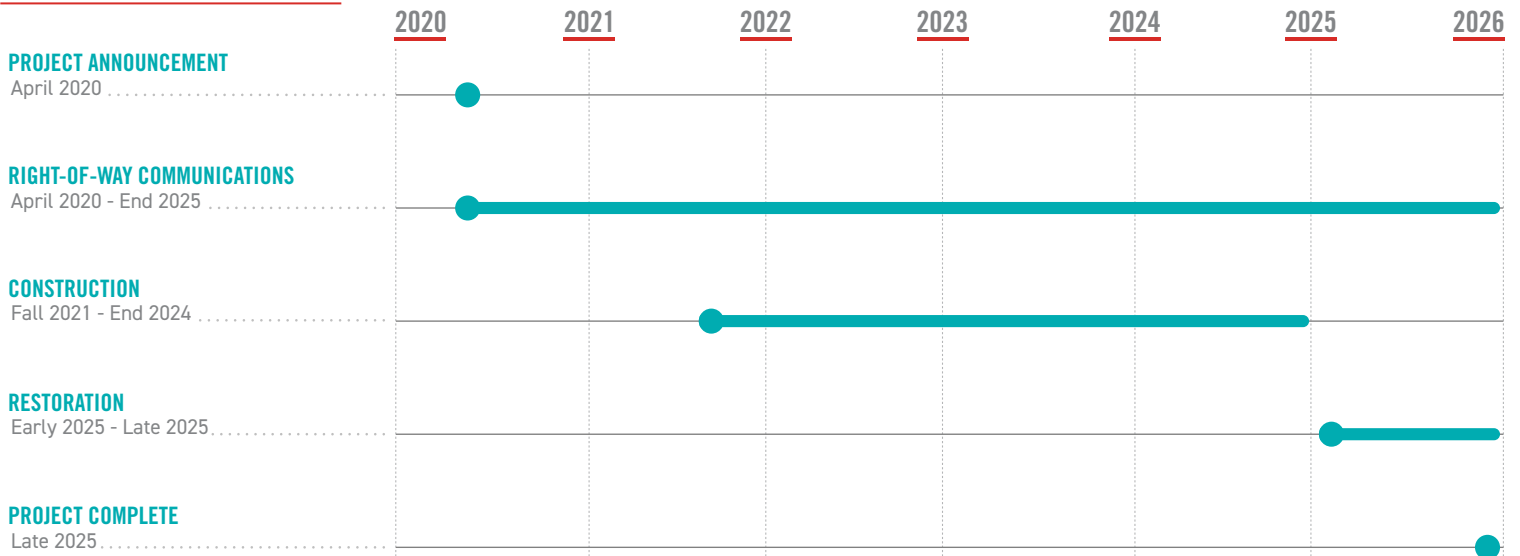

WHERE

The project area includes:

- Sprigg, Liberty, Wayne and Scott townships in Adams County

PROJECT SCHEDULE

*Timeline subject to change.

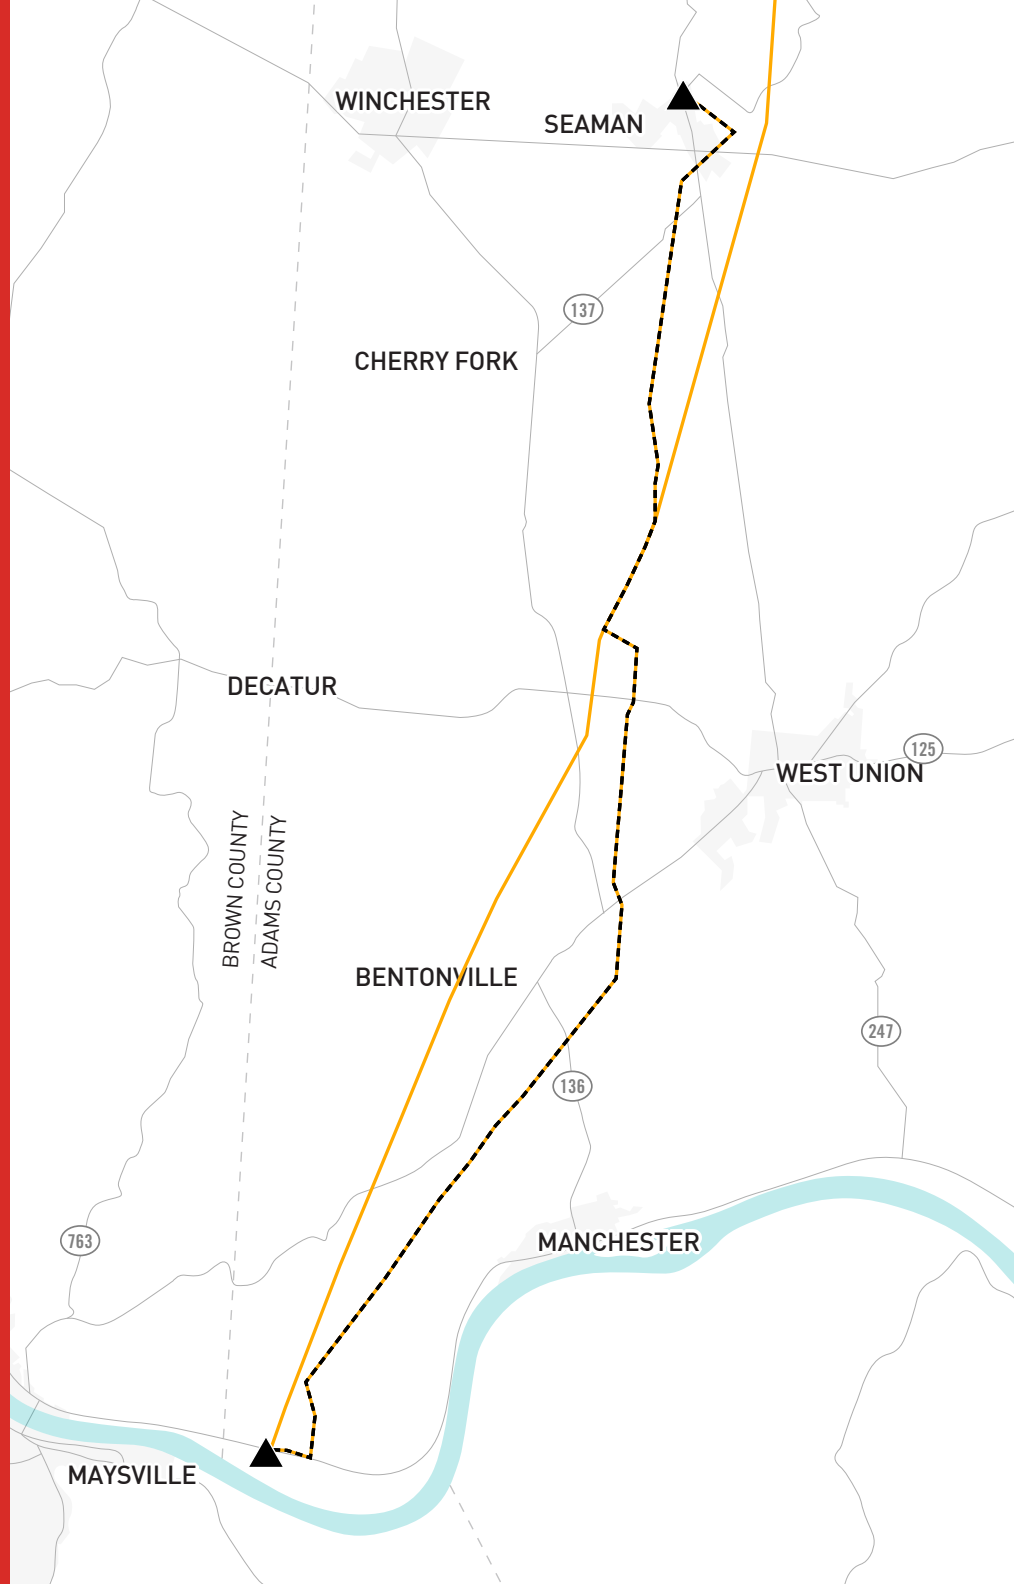

TYPICAL STRUCTURES

This project involves the use of steel, H-frame poles.

Structure Height: **Approximately 70 feet***

Right-of-Way Width: **Approximately 100 feet***

*Exact structure, height and right-of-way requirements may vary
