

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

AEP Ohio officials have proposed an electric transmission project in city of Whitehall, Mifflin and Truro townships, Franklin County, Ohio.

AEP Ohio representatives plan to build two 138-kilovolt (kV) transmission line extensions, totaling approximately 0.2 miles from the proposed Poth Station, located off Poth Road between Schofield Drive and Hyland Court, to the existing East Broad Street - Bexley 138-kV transmission line on Poth Road in the city of Whitehall, Franklin County. The company needs to build the transmission line extensions to meet Whitehall and surrounding areas' growing electrical load demand. Crews also plan to remove 0.1 miles of the East Broad Street - Bexley 138-kV transmission line and replace two structures to accommodate the new transmission line extensions.

AEP Ohio representatives have filed the Letter of Notification with the Ohio Power Siting Board (OPSB) as the Poth East and West 138kV Transmission Line Extensions Project, Case No. 23-0850-EL-BLN. The Letter of Notification to construct, operate and maintain this facility awaits OPSB review. The OPSB accepts motions to intervene in the Letter of Notification up to 10 days following the publication date of this notice. The requirements to intervene are included in Rule 4906-2-12 of the Ohio Administrative Code. Please address motions to Ohio Power Siting Board, 180 E. Broad St., Columbus, Ohio, 43215-3793 and cite Case No. 23-0850-EL-BLN.

The accompanying map shows the project area. Please use this map only as a general guide due to its reduced scale and limited detail. Copies of the Letter of Notification, including specific details about the location and construction, are available for public inspection at the following locations:
