

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

AEP Ohio officials have proposed electric upgrades at Delaware County substation.

AEP Ohio representatives plan to construct two 345-kilovolt (kV) transmission tie lines, totaling .6 miles, on company property to connect the existing Vassell 345-kV Substation and the existing Vassell 765-kV Substation in the city of Sunbury and Berkshire and Trenton townships within Delaware County. The improvements ensure the transmission grid can support the growing electrical demand. If approved, company officials expect construction to begin in September and conclude summer 2026.

AEP Ohio representatives have filed a Letter of Notification with the Ohio Power Siting Board (OPSB) as the Vassell 765 kV - Vassell 345 kV No. 1 and No. 2 Tie Lines Project, Public Utilities Commission of Ohio Case No. 25-0663-EL-BLN.

The Letter of Notification to construct, operate and maintain this facility awaits OPSB review. The OPSB accepts motions to intervene in the Letter of Notification up to 10 days following the publication date of this notice. The requirements to intervene are included in Rule 4906-2-12 of the Ohio Administrative Code. Please address motions to Ohio Power Siting Board, 180 E. Broad St., Columbus, Ohio, 43215-3793 and cite Case No. 25-0663-EL-BLN.

The accompanying map shows the project area. Please use this map only as a general guide due to its reduced scale and limited detail. Copies of the Letter of Notification, including specific details about the location and construction, are available for public inspection at the following locations:
