

LON HILL-WARBURTON

TRANSMISSION IMPROVEMENTS PROJECT

An AEP Company

BOUNDLESS ENERGY™

AEP Texas representatives plan to upgrade the electric transmission system in Victoria, Refugio, San Patricio and Nueces counties. Plans involve rebuilding approximately 58 miles of 138-kilovolt (kV) transmission line in the area. Crews expect to begin construction in early 2022 and conclude in spring 2024.

WHAT

The project involves:

- Replacing wooden poles with steel poles along approximately 58 miles of 138-kilo-volt transmission line between the Lon Hill Substation, located off Callicoatte Road and Hearn Road, and the Warburton Substation, located off U.S. Highway 77 South and Warburton Road
- Replacing wires on new and existing poles along the line
- Upgrading equipment at Lon Hill Substation

WHY

Project benefits:

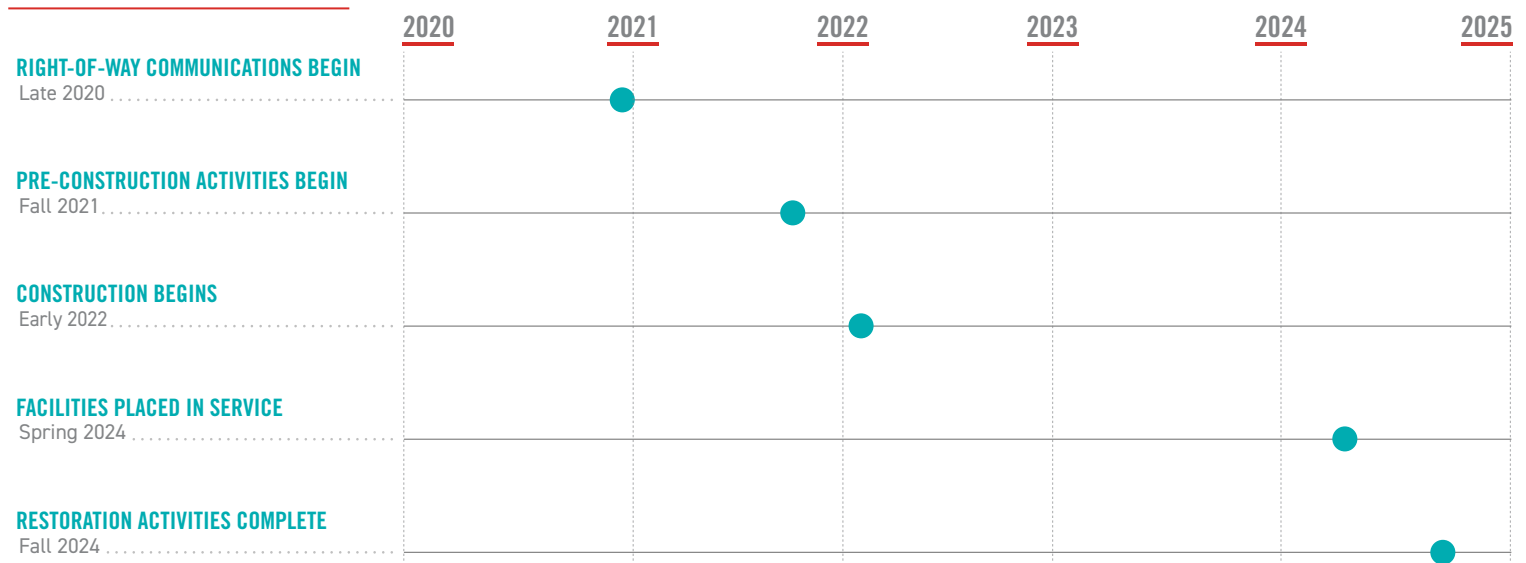

- Increases electric capacity to ensure continued electric reliability for customers
- Replaces deteriorating wooden poles from the 1950s with modern equipment to reduce maintenance frequency
- Upgrades to substation equipment reduce the likelihood of larger, sustained community outages

WHERE

- Victoria County
- Refugio County
- San Patricio County
- Nueces County
- City of Corpus Christi

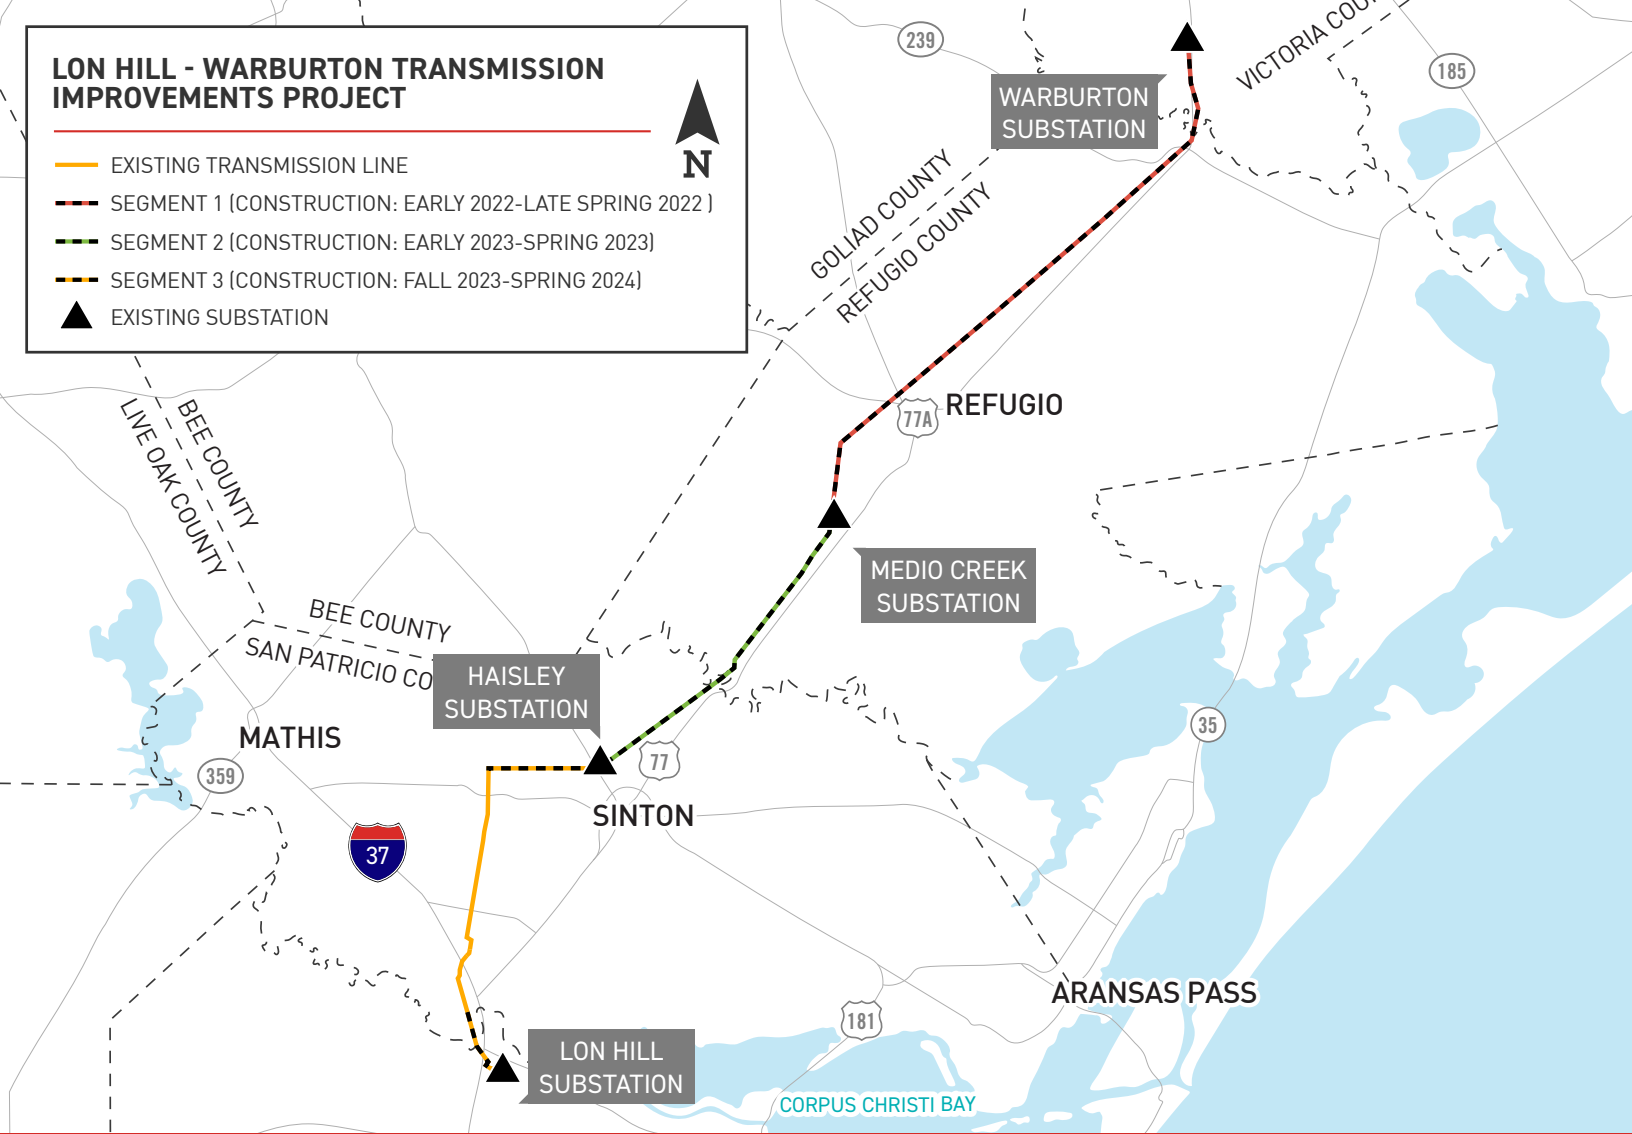

PROJECT SCHEDULE

*Timeline subject to change.

LON HILL - Warburton Transmission Improvements Project

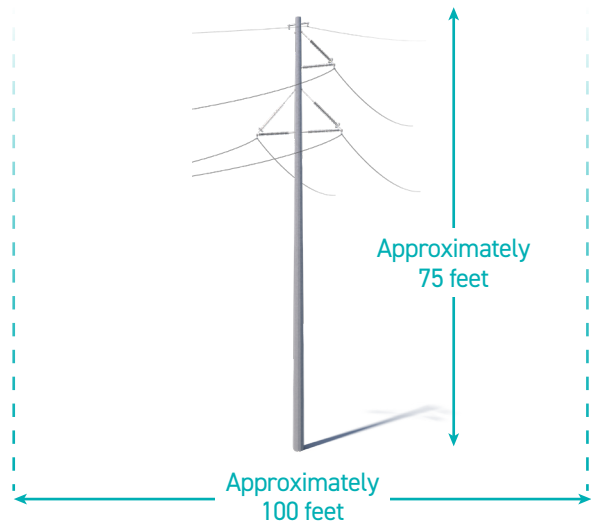

- EXISTING TRANSMISSION LINE
- SEGMENT 1 (CONSTRUCTION: EARLY 2022-LATE SPRING 2022)
- SEGMENT 2 (CONSTRUCTION: EARLY 2023-SPRING 2023)
- SEGMENT 3 (CONSTRUCTION: FALL 2023-SPRING 2024)
- ▲ EXISTING SUBSTATION

TYPICAL STRUCTURES

Typical Structure Height: **Approximately 75 feet**
 Typical Distance Between Structures: **Approximately 600 feet**
 Typical Right-of-Way Width: **Approximately 100 feet**

*Exact structure, height and right-of-way requirements may vary
